The Search for Alzheimer's Treatments: Process & Progress

Hadi Finerty is Senior Manager of Education and Outreach for the Alzheimer's Association Illinois Chapter. She manages staff and volunteer educators throughout Northern Illinois and is the Research Champion for the Illinois Chapter. Hadi was and is affected personally by AD through her grandma, who was diagnosed in 1999 with dementia.

Understanding Dementia

- The Dementia Continuum: Mild Cognitive Impairment to Severe Dementia

Risk Factors for Alzheimer's

- Genetic, Lifestyle, Age

Alzheimer's Drugs

Research Goals

- Delaying Onset of Alzheimer's
- Early Detection / Early intervention
- Treatment
- Cure

The Work of the Alzheimer's Association

- The Importance of Advocacy / Public Policy on Funding Research
- How the Association Advances Research Directly

Biomarkers and Diagnosis of Alzheimer's

Current Landscape of Clinical Trials

- Phase 1, 2 and 3
- Medications for the disease and for the symptoms

SPRINT-MIND Study / Worldwide FINGERS

- Reducing Dementia Risk With Lifestyle Intervention

Ten Ways to Love Your Brain
